

SOLIDARITY WITH THE STRIKING METALWORKERS OF AUSTRIA

Dear comrades and workers of Austria,

The Workers' Front in Croatia, in line with the fact that the struggle of the working class is that of international character, expresses its unconditional support for the nationwide strike you are facing.

The crisis before you is a crisis of us all, for the interests of the oppressive state apparatus and the management of your company are not those of solidarity, care and basic humanity but of exploitation of you and your labor.

We have witnessed losses and concessions to these forces, with many of our unions being mere puppets of the bosses, and the working masses lacking the organization to strike.

Giving up to these foul aspirations of the bourgeoisie is the ultimate defeat, and will in end result in the complete collapse of local and national industries - and with that the systemic dismantling of your workers' rights.

Your government and their accomplices in management would have it no other way, but we do not fret!

For your unity in fighting for what is rightfully yours is more than inspiring.

The struggle continues!
Fighting together, we win together!

Signed,
The Workers' Front (collectively)
